The future is multi-modal.

Introducing Prism 3.0 — the platform that sees, hears, reads, and understands. Built for the next decade of human-computer interaction.

"We don't build tools for machines. We build tools that make machines understand people."

Elara Nakamura
CEO & Founder, Prism

Four senses. One platform.

VISION

See and understand any visual input.

Real-time image, video, and document analysis. From handwritten notes to satellite imagery — Prism sees what humans see, and extracts meaning instantly.

98.7%
accuracy on ImageNet-X benchmark

AUDIO

Transcribe, translate, and analyze any audio stream.

LANGUAGE

Read, write, reason — in 97 languages natively.

STRUCTURED DATA

Query databases, APIs, and spreadsheets with natural language.

2.4B

API calls processed daily across all endpoints

12ms

Median response time (P50) — 3× faster than v2

97

Languages supported with native-quality output

4,200+

Enterprise customers trusting Prism in production

Scale that speaks for itself.

Built for scale. Designed for developers.

▼ ▼ ▼

Prism Core Engine
Unified multi-modal transformer · 1.2T parameters

Routing Layer
Intelligent model selection · Auto-batching

Safety Filters
Content moderation · PII detection

▼ ▼ ▼

REST API
JSON endpoints with streaming support, webhooks, and retry logic.

SDKs
Python, Node, Go, Rust, Java — first-class support with type safety.

Embeddings
Multi-modal vector embeddings for search, clustering, and RAG pipelines.

Fine-tuning
Custom models trained on your data with one-click deployment.

AWS GCP AZURE · SOC 2 HIPAA GDPR ISO 27001

Simple, predictable pricing.

STARTER

$0/month

For developers exploring multi-modal AI.

- 1,000 API calls/day
- All modalities
- Community support
- Standard rate limits
- Playground access

MOST POPULAR

PRO

$299/month

For teams building production applications.

- 100K API calls/day
- Fine-tuning access
- Priority support (4h SLA)
- Custom rate limits
- Team management

ENTERPRISE

Custom

For organizations with specific requirements.

- Unlimited API calls
- Dedicated infrastructure
- 24/7 support + TAM
- SSO / SCIM / audit logs
- On-prem deployment

START BUILDING TODAY

The platform that understands everything.
